### LIBC BANQUET

The following invitations to the civic banquet on Monday next have been accepted by prominent people of other places: Chas. Jas. Sifton, Calgary; A. C. Rutherford, M. L. A., Strathcona; R. B. Bennett, M. L. A., Calgary; J. J. Young, M. L. A., Calgary; J. J. Mackenzie, Mayor of Strathcona; T. W. Langworthy, Mayor of Port Saskatchewan; E. Michener, Mayor of Pa' Deo; J. T. Fowler, President Wetaskiwin Board of Trade; W. H. Gilmour, President Calgary Board of Trade; Rev. Dr. Herdman, Supt. of Presbyterian Missions, Calgary; R. N. Jamieson, Divisional Supt. of O. P. R.

### THE WEATHER

Saturday, November 5.  
Max. 63.  
Min. 33.  
Noon. 52.  
Bar. 29.67.

### LOCAL

The city banquet in honor of Edmonton retaining the dignity of a city will be held Monday evening.  
The regular monthly meeting of the Women's Aid Society of the Edmonton Public Hospital, will be held in All Saint's school room at 3 o'clock on Monday afternoon next.

### IMPROPTU DINNER

A very pleasant gathering took place last evening in the dining-room of the Queen's Hotel, the occasion being the return of the Edmonton workers in the Liberal interests at outside polls, especially those in the eastern country. It had been impossible for them to be in town to take part in the demonstration of Thursday night. So it was thought that the next best thing was to have a demonstration on their behalf, and on that of other outside workers on Friday night. Between seventy-five and one hundred persons sat down to the tables, and although the arrangements were necessarily hurried, the culinary department of the Queen's kept up its reputation. The only matter for regret was that some of the outside workers had not yet arrived, and so were unable to be present. Dr. Glendenan was the able and always efficient chairman. The toast of the King was duly honored, and was responded to by Mr. Prince. Toasts and speeches and songs followed in rapid succession. Messrs. Boyle, Rev. Bouche, Mr. Walker, Leon, Gross, Rydylk, Moty, McKenney, Webster, Biggar, Doids, Howey, Picard, Garneau, Dr. Roy, Mr. Oliver the chairman and others made short speeches. Mr. Baetz, of Fort Saskatchewan, and Mr. Savard, gave several songs most acceptably. Dr. Hop, P. Wagner, and several others were called on, but having already left were unable to respond. It was a tired but happy company. Some of those present had been practically without sleep for four nights, having travelled two hundred miles by team since Monday morning, before moving their several polls election.

I have just received 300 sheets of the latest popular music both in vocal and instrumental. This addition makes our stock now most complete having over 1500 pieces.

### The Latest Hit

**HOCKEY NOTES**

Ed. Sibbald leaves on Monday for Lac La Biche, where he will spend the winter. A few friends are tendering him a farewell banquet at the Pendennis this evening.

The Edmonton junior hockey club are about to organize for the coming winter. Last year this club included among its members some exceedingly fast players, and the team as a whole, made a most enviable reputation for itself. With one or two exceptions the same players are in the city this year, and the team should, with the addition of some blood, be stronger than ever. Last year there was no organized junior club, and their present effort to organize should meet with the support of all local hockey players and citizens generally. A meeting will be held shortly at which this matter will be discussed.

**ELECTION RETURNS**

Interest in the election returns by no means abated yesterday morning when it was well known that the Laurier administration had been sustained by a largely increased majority and that the Edmonton constituency had declared in an uncertain way in favor of Oliver and the railway. Reports were continually being received from outlying polls and when received chalked on the Balloch blackboard. From early morning to the night there was a crowd of people around the returns. Each poll almost without exception contributed towards swelling Oliver's majority.

Considerable surprise was manifested over the remarkable victory of P. Talbot, Liberal candidate in the Strathcona constituency. A close election was expected especially in view of the fact that the Independent candidate, Col. Gregory, was formerly a Liberal and is a resident

of Mr. Talbot's town. Mr. Gregory polled a very small vote, with the exception of Innisfail and Strathcona, the towns declared strongly in favor of Talbot, whose majority gradually, as the outlying polls were heard from, increased until it was over 1000.

**C. N. R. Bridge at the Fort**

Reporter:

The very important question of a combined railway and traffic bridge at Fort Saskatchewan has again cropped up, and we trust by the united efforts on the part of our citizens, together with that assistance which should necessarily follow from the Government, that the bridge when built will be a combined railway and traffic bridge, and not one for railway purposes alone. We understand it is the intention of the board of trade to take the matter up with a view to obtaining the necessary assistance to carry matters through. The town, which practically is in its infancy, is unable to offer a bonus for the erection of a bridge as was the case with the bridge at Edmonton, and we think a bonus is unnecessary when bridges at Red Deer and other places have been erected without a bonus. If the C.N.R. finally decide that the crossing will be at a point near Carscadden's and which will we hope be in the settled on the arrival of Mr. M. H. MacLeod, Chief Engineer, we hope that urgent steps will be taken to having this very important subject before him. It is time the Fort had a modern means of crossing the river. The ferry proposition, although efficiently managed, is an ancient and antiquated means of crossing a river, and although it has served its purpose well, we must not necessarily be as the ancients all the time. Crossing the ferry costs money besides being miserably slow.

When millions of experienced housekeepers  
have been using  
**Sunlight Soap**

for years, for their every requirement, why should not you use it? Try it next wash day, and if you do not find it better than any other soap you have ever used, your grocer will refund your money. Sunlight Soap washes equally well with hard or soft water.

No scrubbing, no boiling.

Lever Brothers Limited  
Toronto

**The Club Man**

As home from the Club he wanders late  
He gently smiles at the wiles of fate  
For he knows the effect of wine and malt  
Is quickly banished by Abbey's Salt.

A night at the club—an unusually elaborate banquet—even a "bird and a bottle"—ought to be followed by a foaming glass of ABBEY'S SALT, next morning.

It cleans the stomach and bowels—stirs up the liver—clears the head—gives snap and vim to the whole system—and sends a man to business as "bright as a dollar."

It makes the clubman, the epicure, forget he has a liver.

**Abbey's Effervescent Salt**  
Is "the Joy of Living."

**JUST A WORD OR TWO ABOUT****PAINTING**

**ROSS BROS. LIMITED**, have the paint that any woman or child can use and make a nice job with. Our colors are guaranteed true to sample and as we sell a very large quantity. Our paints are always Fresh and Ready for the Brush. If you have any doubts about this call at the store and we will give you any further information you may require.

We have just received a large shipment of Berry Bros. celebrated Hard Oil

**Finish and Varnish**

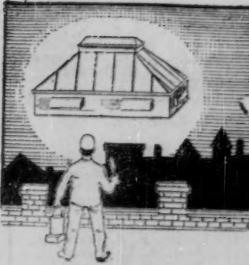

These are the genuine Berry Brothers goods and there is nothing better made, we sell it in any quantity.

**In Plumbing and Heating**

We employ only the best workmen and all our work is fully guaranteed.

It's no trouble for us to give you any information you want about your plumbing and heating. We do all kinds of plumbing, heating, tinsmithing, copper or sheet iron work

and carry an immense stock of material for the purpose. Now is the time you should look after this as there are many who put off until the last moment outside work that can't be done and we go without the work and you suffer in consequence. We still have a very nice assortment of Heating Stoves to choose from, are you supplied?

**C. P. R. at Wetaskiwin**

Wetaskiwin Post:

Messrs. J. S. Dennis, of the C.P.R., Irrigation Department, and R. R. Jamieson, Divisional Superintendent of the C.P.R., came up to Wetaskiwin in their private car on Tuesday morning to confer with the Mayor and Council with regard to street crossing in Wetaskiwin and also to arrange in regard to the spur privileges off the main line into the power house. The gentlemen do not look favorably upon the project of opening Pearce St., crossing for the reason that the traffic of the company at Wetaskiwin is expected to expand enormously during the next year or two and they state that they will require the whole length of the station grounds including extra yard accommodation to the north in order to accommodate their traffic. Mr. Jamieson states that in a very short time he expects that five or six passenger trains a day will be moving in Wetaskiwin on both lines and it would never do in his opinion to cut the track in two at Pearce St., as it would be a constant source of trouble to both company and the townspeople. Mr. Jamieson admitted that Mr. Whyte, the 2nd Vice-President had notified the town of their intention to open Pearce St., but that he had evidently made a mistake in the street. The prospect of great railroad development in Wetaskiwin in the near future are from Mr. Jamieson's estimation practically assured.

**Alberta Sugar**

Raymond Chronicle:  
During the past fortnight beets have been delivered at the sugar factory as fast as necessary and at this time the sheds are overflowing with the roots. The majority of the beets are being delivered from fields near the factory, but a considerable quantity has been brought by rail from the west, and Taber and Calgary have also been represented among the shippers.

The last beets have been grown principally as a test, and the results of careful analysis prove that the Sugar Co. decided most wisely in their choice of a location for the sugar making plant. While a first crop cannot be looked upon as final test of a district as a sugar beet growing district, it must nevertheless be a disappointment to some of the outside growers to learn that the beets submitted by them as samples are not up to the average of the beets grown in the Raymond district, in which is included Magrath. The beets from Cardston in many cases fall into the second and third class while the ones earliest shipped in from Calgary are deficient in sugar contents, and fall below the purity standard necessary for profitable working up. The Taber beets are excellent, ranking favorably with the best grown locally.

**The Canadian Northwest Homestead Regulations**

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purpose, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, or 160 acres, more or less.

**ENTRY.**—Entry may be made upon the district in which the land to be taken is situated, or in the homestead district where he may apply application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

**HOMESTEAD DUTIES.**—A settler who has been granted entry for a homestead is bound by the provisions of the Dominion Lands Act and the amendments thereto to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father deceased), of any person who is capable of making a home under the requirements of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, continuing in the same premises entered by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3 or 4, must or substitute 20 head of stock, with buildings for their accommodation, cultivate 30 acres of his homestead, and have besides 80 acres sub-tended.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

**Information.**—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and the officers in charge, free of expense, advise and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

**JAMES A. SMART,**  
Deputy Minister of the Interior,  
N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

## TO-DAY'S WAR

Shanghai, November 4.—The British steamer Victoria which succeeded in running the Port Arthur blockade with a full cargo of beef and has returned here, confirms the reports that the Japanese have captured all the main north-eastern positions of the fortress.

London, November 4.—Regarding the reports of the completion of the Anglo-Russian convention, the Foreign Office this afternoon reiterates that while an agreement in principle appears to have been reached regarding the form and scope of the international commission, nothing about the personnel can be definitely settled until the authorities at St. Petersburg have an opportunity to examine the text of the draft of the convention which is expected to arrive there to-night.

Chefoo, November 4.—The Chinese who left Port Dalny yesterday evening say that batches of wounded were passing through Dalny. They report also that during the recent battle fresh Japanese troops were constantly going to the front.

Gibraltar, November 4.—The battleship Victoria, Magnificent, Illustrious and Jupiter have been ordered to put to sea immediately. It is believed they will proceed westward.

Tangier, November 4.—The ships of the Russian second Pacific squadron now here will sail at six o'clock to-morrow morning. Their destination has not been disclosed.

London, November 4.—Foreign Minister De Clèves announced to the council of ministers to-day, the details of the approaching session of the Anglo-Russian commission. In the North Sea incident, the sessions of the commissions will be held in Paris beginning about November 16 or as soon as a full attendance can be secured. The commission will be composed of British, Russian, French, and Americans, one from each country these four to select a fifth.

St. Petersburg, November 1.—The four officers detached from the second Pacific squadron to testify regarding the North Sea affair are expected to reach here in a few days. The news of the departure of Vice-Admiral Rojestvensky and his ships from Vigo has considerably relieved the tension here, although fears are expressed in some quarters that there may be further complications before the fleet gets through the Suez Canal or around the Cape of Good Hope.

It is reliably stated that the circumstances of the firing as detailed by the Russian officers closely resemble the facts reported by the admiral of the fishing fleet. When abreast of the trawlers, the Russian squadron was formed in two divisions, of which the cruiser steamers were east, and battleship west, the latter getting among the fishing fleet and opening fire. When nearly clear of the craft, which were heading toward the battleships, some Russian shells flew over the trawlers and struck the cruiser, one of which the Aurora, was hit several times and some of her men were found wounded, including a priest, who died. The transport Anatol apparently became entangled among the trawlers, which she mistook for torpedo boats, and signalled for aid, thereby leading the officer of the battleships to believe the trawlers were attacking the Anatol. This coupled with the appearance of two mysterious torpedo boats resulted in the fatal cannonade.

London, November 2.—The negotiations between the British and Russian Governments in regard to the international commission, which is to investigate the North Sea incident, are progressing apparently to the satisfaction of both sides.

The Foreign Office stated to the Associated Press this evening that regarding the personnel, date or place. The Foreign Office adds that the invitation was sent to several powers to send representatives, but to which power and what representatives is as yet undecided. So far as at present decided, Admiral Sir Cyprian Bridge will sit only at the Board of Trade investigation at Hull. The Foreign Office stated that it knows of no hitch in the proceedings.

Hull, England, November 2.—Thai George Henry Smith and William Leggett, were at about 1.30 a.m. on October 22, while fishing with trawls aboard the British steam trawler, Crane, with Board of Trade Marks exhibited and regulation light burning, killed by shots fired without warning or provocation from certain Russian war vessels at a distance of about a quarter of a mile.

This is the text of the jury's

verdict at the coroner's inquest of the British Government represented by the Earl of Dysart, solicitor of the treasury. This conservative award was rendered by the first court of inquiry preceding the second of the international tribunal. The Government asked the jury not to find a verdict of wilful murder or manslaughter, because scientific questions are going, which should not be made more difficult, and they thought it better not to let any one think they had prejudiced the case before having heard both sides.

To the verdict the jury added the following: "On this occasion,

probably the most momentous in the history of the British Empire, the jury would record their appreciation of the efforts made by the Government to arrive at a satisfactory conclusion of the matter, which we feel has no parallel in the history of the world."

## REFUSED WOMAN SUFFRAGE

Montpelier, Vermont, November 4th.—After a spirited debate the Vermont House of Representatives by a close vote of 99 to 98 refused a third reading to the bill granting municipal suffrage to women who are tax payers.

## SUMMARY

The city of Edmonton gives a majority of 407 for Oliver.

The returns have been received from 73 of the 81 polls in the Edmonton constituency. In one of the constituencies only the majority is given. Edison gives Oliver a majority of 2. In the balance of the polls the total vote is Oliver, 3,526; Secord, 1,343—giving Oliver a majority of 2,083, making his total majority with five polls to hear from, of 2,085.

The last returns from all over the Dominion show—

## A LARGE MAJORITY

### LIBERAL GOVERNMENT

Sustained by a largely Increased Majority

Bulletin Special Despatch.

Ottawa, November 4th.—There are very few changes in the election returns to-day. British Columbia gave solid Liberal. This will other changes leaves a majority for Laurier including the Yukon in the full House at 74. Independent papers say he will have over 70.

## A NOISY SESSION

### IN FRENCH PARLIAMENT

The Discussion of the French Government's Action in Spying upon Army Officers caused an uproar

Paris, France, November 6th.—The Chamber of Deputies held a tumultuous session to-day over renewed interpellations on the subject of the police. War Minister Andre alleging that he was personally cognizant of the system of spying upon officers. During the time when the Minister was making his reply there was a scene of intense confusion. He said that during the Dreyfus affair some officers participated in the manifestations against President Loubet and he cited other instances showing intolerance and lack of discipline among officers. The Minister further declared that this was fermentated by political and clerical agitators.

### ANOTHER TREATY

Washington, November 4th.—Negotiations have been initiated for a treaty of arbitration between Germany and the United States.

**HIGH SCHOOL LITERARY**

The Edmonton high school literary society held a very successful meeting on Thursday afternoon. It was opened by a short address by Ranald McDougall, president, of the society. Piano solos were given by Miss L. Richardson and by Miss Blayney. The school paper, the High School News, was then read by Anna Oliver, the editor. A debate followed. Resolved, that monarchical form of Government is better than the republican. The speakers on the affirmative side were Albert Huff and Clyde Sutherland, and on the negative side A. Grant, and John Knott. The debate was very interesting, many good points being well brought out.

Mr. Johnston gave the critic's report, making several suggestions, and Mr. Ellis gave the judge's decision on the debate in favor of the negative.

**G. T. P. Railway Commission**

Winnipeg Tribune:

F. B. Wade and R. Reid, two members of the Government commission who are to take charge of the construction of the proposed G. T. P. line from the city of Moncton, arrived in Winnipeg last evening from Ottawa. They were joined here by C. A. Young, the western representative of the commission.

"When the commission began work," he said, "it was its object to place survey parties in the field covering the whole of the distance between where the exploratory surveys of the Grand Trunk Pacific end at a point 120 miles west of Lake Abitibi, through to Moncton. This has been accomplished. The whole of these parties, 34 in all, are in the field, and the majority have been at work upward of three weeks. The parties are of full strength and are supplied with everything that is necessary for their campaign."

As soon as this work has been accomplished the commission visited Quebec and the lower provinces for the purpose of familiarizing themselves with the conditions existing there, and now we have come out to Winnipeg to look over the situation here. It is about decided that the surveys made by the G. T. P. will be taken over from Winnipeg east, by the commission, in which case location surveys will be begun at once, and pushed ahead with all possible speed. Major Hodgins has been appointed district engineer for the district of Winnipeg, which will cover about 250 to 300 miles east from the city. He is here with us and will secure offices and organize a staff at once."

In answer to a question regarding the Winnipeg terminals, Mr. Wade said: "One of our chief objects in coming to Winnipeg is to look over the terminal facilities in order that we may be in a position to reach a decision in the matter."

It is the determination of the commission to begin construction eastward from Winnipeg as soon as we can, and to press on the work with the utmost vigor, in order to keep pace with the proposed work of the G. T. P. company west, and also to meet the lake branch. This part of the work will also be pushed with a view to give the earliest relief to the output of the West by way of the Great Lakes pending the completion of the through line. At the same time as required by the situation, the work from Moncton west, and from Quebec east, and west will be prosecuted with equal vigor.

All the engineers employed so far are Canadians. These have been almost entirely selected from the east, it being the intention of the commission that the parties in Major Hodgins' district shall be, as far as possible, from the West. Major Hodgins will remain in Winnipeg and will receive applications for positions at his office. We have no doubt but that he will be able to secure sufficient Canadian engineers.

to carry on the whole work, as in addition to those already seeking work in Canada, we are receiving a large number of applications from Canadian engineers who are now engaged abroad."

**Growth of Alfalfa**

The Prairie Farmer, describing the treatment that land should receive for alfalfa seed in the central states, where this crop is largely grown, says:

"The land you intend to sow to alfalfa in the spring should be plowed this fall unless it has been in some cultivated crop. In the spring a thorough loosening of the surface of the soil with a disc harrow will put it in good condition to receive the seed. It is of the utmost importance that the seed-bed be put in first-class condition, as the character of the stand, and hence, the value of the crop for years to come depends largely upon this factor."

"It will be well to select for the alfalfa seeding a piece of ground that is comparatively free from weeds, as there is little chance of securing a satisfactory stand of alfalfa in the presence of a weed crop. The alfalfa plants while small are quite delicate, and will hardly bear shading. The Kansas station advises that in case land intended for alfalfa is full of weed seed, it be put to some other crop for a couple of years, and thoroughly cultivated to get it cleaned up. The additional yield of alfalfa secured through this preparation, it is claimed, will pay for the expense and delay. Corn and potatoes are good crops for this purpose.

"The amount of seed necessary to insure upon a good stand will depend upon the quality of the seed, and the character of the seed bed. Some growers are able to get a good start with only ten pounds of seed per acre, while others use thirty pounds, and find it none too much. With good seed and the seedbed in good condition, twenty pounds of seed per acre should give an excellent stand."

"On light sandy or loamy soils we would prefer to do the seeding with a press drill, but on a clay soil, better results, on an average, will perhaps be obtained by scattering the seed broadcast on the disked surface, and following with a light harrowing. On a clay soil if a heavy rain should follow the seeding before the young plants come up, a crust may form on the surface that will materially interfere with the start of the crop. In such a case, it will be of advantage to break up the crust with a light harrow or wader. It will be necessary to run over the field occasionally during the season with a mowing machine to keep down the weeds. This should be done often enough so that the crop cut off can be left lying on the ground to serve as a mulch, without danger of its smothering the young alfalfa."

"Get good seed, and if there has been alfalfa or sweet clover growing in the immediate vicinity do not fail to secure material for inoculating the field with the alfalfa germ. Soil from an old alfalfa field, where the roots show the presence of bacteria, may be obtained and scattered over the field to affect this inoculation."

**MAIL ROUTES AND SERVICES**

Mail routes and services to and from Edmonton Post Office are as follows:

With Strathcona mail is exchanged morning and evening.

Mail from the south is received daily at 4:30 p.m. Mail for the south leaves daily at 7:45 a.m.

Mail is despatched to Stoney Plain, Stony Lake, Lac Ste. Anne, MacLean, Ingles, Spruce Grove, and Winterton every Wednesday and Saturday at 8 a.m., and arrives from these points every Tuesday and Friday at 5 p.m.

Mail for Duth, Bon Accord and New Lunnan leaves at 2 p.m., every Tuesday, and mail from these points arrives here at 12 noon on Tuesday.

Mail for Namao is despatched from Edmonton Post Office every Tuesday and Friday at 2 p.m., and mail from this point arrives here every Tuesday and Friday at 12 noon.

Mail is despatched from the Edmonton Post Office for Athabasca Landing, Astleyville, and Edson.

"The amount of seed necessary to insure upon a good stand will depend upon the quality of the seed, and the character of the seed bed. Some growers are able to get a good start with only ten pounds of seed per acre, while others use thirty pounds, and find it none too much. With good seed and the seedbed in good condition, twenty pounds of seed per acre should give an excellent stand."

"On light sandy or loamy soils we would prefer to do the seeding with a press drill, but on a clay soil, better results, on an average, will perhaps be obtained by scattering the seed broadcast on the disked surface, and following with a light harrowing. On a clay soil if a heavy rain should follow the seeding before the young plants come up, a crust may form on the surface that will materially interfere with the start of the crop. In such a case, it will be of advantage to break up the crust with a light harrow or wader. It will be necessary to run over the field occasionally during the season with a mowing machine to keep down the weeds. This should be done often enough so that the crop cut off can be left lying on the ground to serve as a mulch, without danger of its smothering the young alfalfa."

"Get good seed, and if there has been alfalfa or sweet clover growing in the immediate vicinity do not fail to secure material for inoculating the field with the alfalfa germ. Soil from an old alfalfa field, where the roots show the presence of bacteria, may be obtained and scattered over the field to affect this inoculation."

**MAIL ROUTES AND SERVICES**

Mail routes and services to and from Edmonton Post Office are as follows:

With Strathcona mail is exchanged morning and evening.

Mail from the south is received daily at 4:30 p.m. Mail for the south leaves daily at 7:45 a.m.

Mail is despatched to Stoney Plain, Stony Lake, Lac Ste. Anne, MacLean, Ingles, Spruce Grove, and Winterton every Wednesday and Saturday at 8 a.m., and arrives from these points every Tuesday and Friday at 5 p.m.

Mail for Duth, Bon Accord and New Lunnan leaves at 2 p.m., every Tuesday, and mail from these points arrives here at 12 noon on Tuesday.

Mail for Namao is despatched from Edmonton Post Office every Tuesday and Friday at 2 p.m., and mail from this point arrives here every Tuesday and Friday at 12 noon.

Mail is despatched from the Edmonton Post Office for Athabasca Landing, Astleyville, and Edson.

to carry on the whole work, as in addition to those already seeking work in Canada, we are receiving a large number of applications from Canadian engineers who are now engaged abroad."

The Praire Farmer, describing the treatment that land should receive for alfalfa seed in the central states, where this crop is largely grown, says:

"The land you intend to sow to alfalfa in the spring should be plowed this fall unless it has been in some cultivated crop. In the spring a thorough loosening of the surface of the soil with a disc harrow will put it in good condition to receive the seed. It is of the utmost importance that the seed-bed be put in first-class condition, as the character of the stand, and hence, the value of the crop for years to come depends largely upon this factor."

"It will be well to select for the alfalfa seeding a piece of ground that is comparatively free from weeds, as there is little chance of securing a satisfactory stand of alfalfa in the presence of a weed crop. The alfalfa plants while small are quite delicate, and will hardly bear shading. The Kansas station advises that in case land intended for alfalfa is full of weed seed, it be put to some other crop for a couple of years, and thoroughly cultivated to get it cleaned up. The additional yield of alfalfa secured through this preparation, it is claimed, will pay for the expense and delay. Corn and potatoes are good crops for this purpose.

## CLOTHING.

This Fall we are showing Suits that suit not only the person but the purse.

Suits ranging from \$5.00 to \$25.00 in Blacks, Blues and Tweeds.

## We Have

A fine assortment of American Ties made in the new shades and shapes. These ties are extremely nifty.

## Clothes

Do not make the man but they aid greatly in his personal appearance. So if you wish to be well dressed get the habit of buying you clothes at

## GROCERIES

Among the necessities of life are

## Flour and SUGAR!!

We have a large stock of both.

Hungarian Patent Flour, per 100	\$3.25
1st Grade Strong Bakers, "	2.50
2nd Grade Strong Bakers, "	2.25

Granulated Sugar, per 100 lb sack	\$6.25
Granulated Sugar, per 20 lb sack	1.25
Brown Sugar, per 100 lb sack	5.90

## HAVE YOU SEEN

Those new Vases in our Crockery Department. They are selling rapidly and if you wish to take advantage of these bargains you must come early.

## MENS' FUR COATS.

Cold weather will soon be here and to protect yourself from the chill blasts of a Northern winter Fur Coats are almost a necessity. We have a large line of Mens' Coats in Coon, Wombat, Russian Calf etc.

Coon Coats from	\$35.00 to \$100.00
Wombat Coats from	22.50 to 30.00
Russian Calf from	22.50 to 30.00
Sheep Lined from	7.50 to 22.50

Also a full line of Mens' Overcoats at all prices.

## REVILLON BROTHERS STORES.

### COWS THAT DO NOT PAY

Mr. J. C. Chapais, assistant dairy commissioner, who is particularly well acquainted with agricultural conditions in Quebec, said in a recent address: From my experience I am led to believe that the reason why the Babcock test is not generally more adopted as a basis for payment for milk is lack of knowledge on the part of farmers. They do not know anything about the true value of cows. On they are told that a cow that yields thirty pounds of milk is no more valuable than one yielding forty pounds, they do not understand it. I came across an instance of this kind when I was working with the inspectors in the Lake St. John district. One man said "I have the best cow in the parish, she gives sixty pounds of milk." I went out to his place, having with me the figure as to the butter fat in his milk. I got from him the facts as to cost of feeding his cow, and figured out the cost of the milk. I found that it cost, allowing the ordinary price for the feed used, about 96 cents a hundred pounds. At the priest's house I got the figures about a cow owned by him, whose milk only cost 44 cents per hundred pounds. I showed the man that the percentage of butter fat in the milk of his cow was 2.85, while in that of the priest's cow it was 5.50. I was able to show him that, instead of having the best cow in the parish, he had the worst. The result was that, whereas this man generally sold a calf at \$15 at birth, the next year, though the calf was a heifer, nobody would buy it. This shows that the farmers will understand this matter if we go to them and explain it.

### LIVE STOCK TRADE WITH ARGENTINA

Some information regarding the possibility of developing a trade in live stock with Argentina is given by Mr. W. S. Spark, the well-known English foreman, in a letter to Mr. F. W. Hodson, live stock Commissioner. Soon after his arrival in that country Mr. Spark wrote, "I find all cattle landed here must, besides the certificate of breeding have a certificate (or rather the shipper must produce it) from the Minister of Agriculture, or his deputy, of the country from which they are sent, to declare that there has been no infectious disease in that country for six months previous to shipping. If the said document is not produced the cattle are not allowed to land. In any case all cattle must be kept in quarantine for 40 days, after which they are tested and if they do not pass are slaughtered and the owner has to bear the entire loss. Notwithstanding all this trouble it will pay breeders to send really good, pure-bred Shorthorn bulls and heifers here to sell. You can't sell grade cattle at any price."

In a later letter Mr. Spark says: "The more I see of this country the more convinced I am that the Canadians can do a very large trade here in live stock, and agricultural machinery, neither of which there is any duty on here. I enclose you an account of a sale of imported bulls which took place last week, which shows that the twelve animals offered brought \$79,900 or an average of nearly \$6,600 each. These prices are in Argentine dollars, equal to 44 cents Canadian money. I have attended eight similar sales and the average prices paid have been 1400 Canadian dollars each. The bulls sold, I am told by good judges who have

been to the Toronto show, would not be good enough to win there. The only time to sell here is in September (the best month) October and November, so they would have to be shipped in June and July from Canada. You really should attend next year's exhibition at Buenos Ayres in September, which will be international. I hope Canada will make an exhibit, for if she did all the stock could be sold at the exhibition at very remunerative prices."

### THE RAILWAY COMMISSION-SIGN

Ottawa, November 4th.—The Railway Commission is considering whether it should not from time to time request the Provincial Attorney Generals to promptly proceed with the prosecution in every instance in which negligence, carelessness or failure to observe orders which result in destruction of human life.

### Washing Proves

There's only one real test of unshrinkable underwear—the wash tub. Two or three hard rubbings will soon shorten the usual so-called "unshrinkable" underwear. That's why the directions for washing are so elaborate—why there are so many "ifs" and "don'ts."

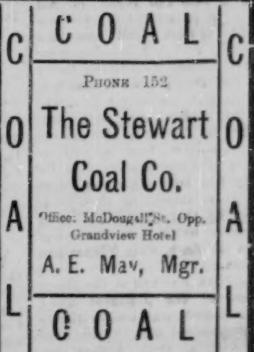

### Stanfield's Unshrinkable Underwear

is absolutely unshrinkable. The wash tub proves it. Your dealer guarantees this to you—and we back up that guarantee to him. We know it won't shrink because it can't shrink. Our special process takes out the shrink before the garments are cut. Even then, each one is tested by washing.

## LOCAL

The city council sat in committee of the whole last evening to discuss private matters in connection with the city business.

**Okotoks Review:** John Lincham returned last week from the scene of his oil discoveries south of Pinche Creek bringing with him two large barrels of the crude oil which was closely inspected by numerous people. Expert oil men state the material is of the very richest kind, and when refined will exceed in quality anything yet discovered. From two to three hundred barrels is the daily output, and the flow continues unabatingly.

**Reporter:** The Canadian Northern railway right of way stakes its bridge site at Fort Saskatchewan have all been put in by Mr. MacFarlane, the C. N. R. engineer, and the party are now working between the crossing and Edmonton. From all appearances the winter may be an open one, and if so the fort may have the railway in the spring instead of next summer. The work at Vegreville is going ahead rapidly.

## VITAL STATISTICS

The following is the vital statistics reported for the Edmonton electoral district for the month of October, as recorded in the office of the registrar:

Births, 15.

Deaths, 18.

Marriages, 9.

## AT THE CHURCHES

The services in the Presbyterian church to-morrow morning and evening will be conducted by the Rev. D. G. McQueen.

Pastor McDonald will conduct services in the Baptist church both morning and evening. The subject of his evening's discourse will be "Injuries and Excuses."

All Saint's church services will be taken by Rev. H. A. Gray.

## Japanese admit Loss of Battleship

Paris, Nov. 3.—The Associated Press was put in a position to day to state positively that it is despatched from China, Port Arthur and Tokio, last June, to the effect that the Japanese battleship Yashima had been sunk by a mine off Dalian, which up to then were denied by the Japanese authorities at the time, have finally been officially confirmed.

The Japanese Government has notified foreign governments of the loss of the ship. The number of men who went down with the vessel is not known, but it is believed to have been small. The initial details show that the Yashima struck a Russian mine and later attempted to make Dalian harbor, but this proved impossible, and she sank in the deep water. The loss of the Yashima has been conceded by the Japanese, though the Russian authorities have believed for some time that the reports that the battleship had been destroyed were correct. It is important since it is now disclosed that Japan has only four modern battleships remaining. These are the Asahi, Fuiji, Mikasa and Shinkishima.

The Yashima was one of the finest battleships of the Japanese navy. Her displacement was twelve thousand and three hundred tons. The Russian squadron at Port Arthur includes five battleships, more or less damaged, and Rear-Admiral Bogatovsky's command which is now on route to the far east also numbers five battleships.
